

WE'RE IN THIS TOGETHER

Create a safer workspace with a COVID-19 test from Mobile Health

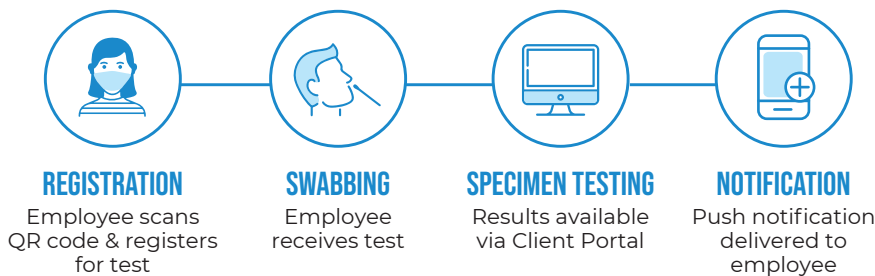

SL GREEN AND MOBILE HEALTH

Mobile Health is proud to partner with SL Green for COVID-19 testing. We will bring everything necessary for a quick-and-easy experience. Our Point-of-Care Rapid PCR and Lab-Based PCR COVID-19 testing is fast, reliable, and follows all CDC guidelines. We will notify you and your employee as soon as results are received.

WHAT TO EXPECT DURING TESTING

The Point-of-Care Rapid PCR testing process is easy. Employees will receive a mid-nasal swab with results in approximately 30 minutes. The test only takes 30 seconds to administer. Lab-Based PCR testing will also be available with results in approximately 24-28 hours.

Here's a look at the entire process:

ABOUT MOBILE HEALTH

Mobile Health has been a trusted employee screening and occupational health provider since 1984. Mobile Health's scalable and customizable solutions provide employers with a healthier, safer, and more productive workforce. Since the onset of the pandemic, Mobile Health has offered COVID-19 testing and vaccination programs to municipalities, schools and universities, and private businesses to keep students and employees safe, healthy, and productive.
