

## A CLOSER LOOK

# DRUG & ALCOHOL TESTING

### DRUG TESTING

From 5 to 13-panel drug tests, we customize to meet your specific needs. Our SAMHSA-certified laboratories, chain of custody protection, and Medical Review Officer confirmation ensure you are always OSHA and DOH compliant.

We can test for any and all of the following panels:

- Amphetamine
- Barbiturate
- Benzodiazepine
- Cannabinoid/THC
- Cocaine
- Opiate 2000, EIA
- Methadone
- Methaqualone
- Phencyclidine
- Oxycodone/Oxymorphone
- Propoxyphene
- MDMA

\* These are the most common drugs screened for by employers. Other drugs can be tested for upon request.

**BLOOD ALCOHOL TEST** – a blood draw procedure measuring the amount of alcohol in a sample of the patient's blood to determine BAC.

**BREATH ALCOHOL TEST** – a breathalyzer procedure measuring how much alcohol is in the air as the patient breathes out to estimate BAC.

## HOW WE DELIVER

### 6,500 NATIONWIDE CLINICS

77% of U.S. employees live within 10 miles or less of a Mobile Health clinic. With next-day appointments around every corner, you can hire and maintain compliance faster than ever.

### ON-SITE EXAMS

Every service we provide can be brought right to your doorstep. Our 24/7 on-site teams can come to your breakroom, parking lot, or job site, ready to go – providing the staff, supplies, and technology for a seamless event.

## HOW WE SUPPORT

### DEDICATED ACCOUNT MANAGERS & CLIENT SUCCESS TEAM

No more waiting on a 1-800 line – your dedicated account manager and client success team is accessible every step of the way. When your needs shift or regulations change, our problem solvers have your back.

### EASY-TO-USE TECHNOLOGY

Our tech keeps you HIPAA-compliant and organized. In **Client Portal**, you can quickly schedule and modify appointments for any of our 6,500+ clinics. Tired of scheduling exams? Employees can book their own appointments through **Patient Portal**, with results sent straight to you.
